**The Mysteries of Creation**

**Welcome to T.I.A.G.  
« The Itinerant Art Gallery »**

Part conference, part performance and part exhibition, this show has a mission: to explain the inexplicable!

Jean Julien and Olivia will guide you through the extravagant and genial world of contemporary art. They will show you the invisible, the material and the conceptual...

All of this thanks to the many original artworks on loan from their artist friends. 3 walls... 3 cubes to give space to the expression of the concepts and the materials.

3 performances to re-explore 3 great classics on three universal themes. Between cynicism and jokes, the spectator falls into a surreal universe, subtly comic and evidently crazy.

40 minutes exploring the world of contemporary art and thus emerging transformed.

**Jean-Julien Dubois**

Concept Creator – french misunderstood performer

French interpreter Born in Paris in 1982 and not yet dead. This artist never stops breaking the rules.

Especially known for his animalistic performance art, his first exhibition Canine Dejection raised the question: "Are humans the only beings capable of creativity?" He offers us an avant-garde and vivacious vision of contemporary art.

**Olivia Bialetti**

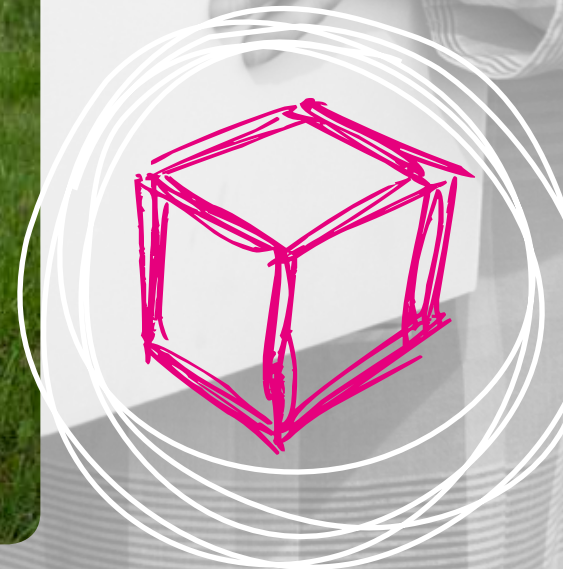

plastic artist & sculptor

Italian Born in Milan (1980), always in action! She has been teaching plastic arts at the Academy of Fine Arts for 10 years. Her exhibition "LEADERS" made her famous. This installation of wax statues depicting world leaders melting in the sun shocked everybody.

## Compagnie 12.0

The modest but nonetheless brilliant company is composed of two humourous "homo-conceptus" that were inspired to collaborate after meeting at a cabaret. After phone calls and emails, meetings and exchanges, a first show was born!

# T.I.A.G

A show for all ages  
Duration : 40 min  
Location: theatres or outdoors  
Compagnie 12.0

With the lightness of childhood games, we wanted to take an ironic look at the curious aspect of contemporary art works and their meaning, often not immediately clear to the people who do not work in the sector. So ... who better than two artists to guide you through the sinuous paths of the world of contemporary art.
